

REMARKS

Claims 1-13, 15-18, 27-31, and 33-36 are now pending in the application. A mis-numbering of claims in the Responsive Amendment mailed on March 4, 2003 (Paper No. 10) resulted in Claim 32 never being presented for consideration.

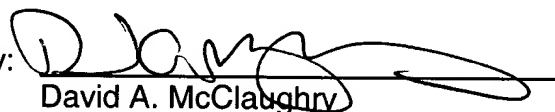

In the Advisory Action, the Examiner refused to enter the amendments to Claim 37. Applicant respectfully traverses the Examiner's refusal to enter these amendments. Specifically, Applicant submits that the amendment to claim 37 does not raise new issues and does not present an issue of new matter. Applicant further submits that the claim is supported by the original disclosure. However, in the interest of concluding prosecution of this application and in compliance with 37 C.F.R. 1.116, Applicant cancels claims 37-40, and expressly reserves the right to prosecute this subject matter in a continuing application. Applicant has also amended the title to reflect the cancellation of apparatus claims from the present application.

Prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: September 19, 2003
